VIRGINIA'S

Splendid Gathering Expected in Charlottesville Next Month

MOVEMENT IS ENDORSED

Dr. J. A. Quarles, Governor Montague

and Superintendent Southall Warmly Endorse Great Movement-See

Mush Good to Come of it.

The annual session of the Virginia State

Teachers' Association will be held at

Charlottesville, November 19th, 20th and

21st, and President R. C. Stearnes, of

Salem, is hopeful of a large attendance and much good to come from the meet-

This is a great movement, and to a new

movement-the organization of the teachers of the State into an association for

esting and helpful to them. All of the

teachers, scattered far and wide over the

great State. In valley and on the moun-

tainside, amid the bluegrass fields of the

Southwest, or in the flat lands of Tide-

water, may not know of the plan and

purpose, or may not understand them,

and so Mr. Stearnes has gotten Professor James A. Quarles, of Washington and Lee; Governor Montague and Dr. Joseph

W. Southall, Superintendent of Public In-

struction, to write letters giving their

views, which are most commendatory. He

has nublished these expressions in a

pamphlet and has scattered them as far

NO DUNCE, NO DUDE. The paper of Professor Quarles is par-

ticularly strong and convincing. An ex-

cerpt is quoted here:
"Virginia is the mother State, and her sisters of the South especially look to her for stimulating guidance in the forward march to what is best. We must wisely lead, that they may safely follow.

"The important factor in education is

low.

"The important factor in education is not the building nor the equipment, but the teacher. Better results come from a log house without apparatus, in which a true man or woman is found, than from the most elegant edifice, with the most improved facilities, where a dunce or a dude presides. The world-Virginia-wants better teachers, better fitted for the work of making men and women to do their part in State and church.

"For better teachers we must have conditions which will call the best talent into the schoolroom, for brains and heart teachers are demanded, they will respond. A demand for the best must be the best demand. When the call is for twenty-dollar teachers for a four-months' term, such teachers will be had; and when the demand is for fifty-dollar teachers for a ten-months' term, the supply will meet the demand."

THE GOVEROR'S VIEW.

Governor Montague says: "I am greatly interested in "your "association. Teaching is at the bottom of all education, and the nublic free school is essential to the maintenance and growth of republican institutions. Full, frank and intelligent discussion of the method and needs of teaching by teachers must result in great good to our school system and to the

good to our school system and to the

tion, free and formal oscussion, and mi-formal conversation, among large num-bers of intelligent teachers, will surely lead to satisfactory conclusions concern-ing important questions. The association should also keep well abreast with pol-rices and methods pursued in other States, so that an enlightened spirit of progress way be infrared but our, whole reaching

may be infused into our whole teachin

GAME PLENTIFUL

State Field Trials Are Being Looked Forward to Vith Pleasure. (Special to The Times-Dispatch.)

discussion of those questions inter-

ing, mingling and discussions.

HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the peop to deal with when in need of anything in their line, which usually includes They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest are setting many minors of the control of the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by billiousness and constitution and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as

Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles individual druggists to be found, here and there, who do not maintain the dightly and philefiles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to seil the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations the Company—California Fig Syrup Co.—printed on the frent of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Synna Companies of the facts, in order that all name of the Company— California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

GOOD BALL PARK IS MUCH NEEDED

Norfolk is Taking Athletic Honor and Cash Away from Richmond.

Richmond seems to have her share of the foot-ball games this season, and from the attendance and enthusiasm displayed by the speciators, the prospects are that it will be the most successful foot-

thail year in her history.

It is unfortunate that Richmond, the largest city in the State, should lose her position as the most desirable place for the national sport in the South, yet the caterprice of the managers of Lafayette field in Norfolk and the intense enturisiasm displayed by the immense crowds that witness the games there have made Norfolk rather than Richmond the center of attraction for foot-ball managers. A well kept athletic park in these days, when athletics are at their height, is a paying investment. A same like the Carliele-Virgina contest brings thousands a preacher of great power. A number of when athletics are at their height, is a paying investment. A game like the Carlisle-Virginia contest brings thousands of dollars into the city from all over the State and country. The crowds that flock to these big games come with there is open pocketbooks and are only waiting college.
